

DEPARTMENT OF GEOGRAPHY
GOVT. DEGREE COLLEGE NOWSHERA

PROGRAMME SPECIFIC OUTCOMES

Geography is the study of places and the relationships between people and their environments. Geographers explore both the physical properties of Earth's surface and the human societies spread across it. They also examine how human culture interacts with the natural environment and the way those locations and places can have an impact on people. Geography seeks to understand where things are found, why they are there, and how they develop and change over time. The study of the diverse environments, places, and spaces of Earth's surface and their interactions. It seeks to answer the questions of why things are as they are where they are. The modern academic discipline of geography is rooted in ancient practice, concerned with the characteristics of places, in particular their natural environments and peoples, as well as the relations between the two. This programme in geography is tailored to meet the students' specific educational and professional goals in mind. It focuses on spatial studies, qualitative as well as quantitative, and emphasises on human-environment relationship. During the first year of the programme, the students are trained on concepts of Geomorphology. In the second year students will learn about Oceanography and Climatology. The third year allows them to concentrate on specific areas of the subject, on which they complete their field reports. After completing the course, the students will be amply prepared for professional careers in geography and allied disciplines like GIS and Remote Sensing. They will also be able to pursue M.A. /M.Sc. Course in Geography.

OUTCOMES

- To understand the scope and evolution of the diverse discipline of Geography.
- Recognize, synthesize and evaluate diverse sources of knowledge, arguments and approaches pertinent to exploring human-environment problems. Explain societal relevance of geographical knowledge and apply it to real world human- environment issues.
- Appreciate and reflect critically on the importance of holistic and interpretative human- environment perspectives.
- An understanding and acknowledgment of the threats that endanger the earth's natural systems. This helps in further realization of the significance of anthropogenic causes of many of the disasters and threats that puts life on this planet on the edge.
- Development of knowledge, skills and holistic understanding of the discipline among students. Encouragement of scientific mode of thinking and scientific method of enquiry in students.

COURSE OUTCOME SEM 1st

Title: Physical Geography

Course Code: UGOTE- 101

Credits: 4

Student will gain the knowledge of physical geography. They will gather knowledge about the fundamental concepts of Geography and will have a general understanding about the geomorphologic and geotectonic process and formation.

Title: Cartography I

Course Code: UGOPC- 102

Credits: 2

The objective of the practical course in geography is to go through laboratory exercises on drawing of scales, understanding different types of maps and drawing of relief features of geographical significances.

COURSE OUTCOME SEM 2nd

Title:Geography of Jammu and Kashmir

Course Code: UGOTC- 201

Credits: 4

The objective of this course is to make the students familiar with the Geography of Jammu and Kashmir, its physical, socio- cultural and economic setting.

Title:Cartography-II (Practical)

Course Code: UGOPC- 202

Credits: 2

The objective of this practical course in Geography is to understand and draw diagrams representing physical data. Secondly, students will be made to conduct field survey in the campus and go for field trip to understand geography in real sense.

COURSE OUTCOME SEM 3rd

Title:Physical Geography-II

Course Code: UGOTC- 301

Credits: 4

The objective of the course is to introduce the latest concepts in Physical Geography especially in Climatology and Oceanography to the students of Geography.

Title:-Cartography-III

Course Code: UGOPC- 302

Credits: 2

The objective of this practical course in Geography is to understand and draw diagrams representing physical data. They will understand the concept of Cartographic methods and statistical data.

COURSE OUTCOME SEM 4th

Title: Geography of India

Course Code: UGOTC- 401

Credits: 4

The objective of this course is to make the students familiar with the Geography of India, its physical, socio- cultural and economic setting.

Title: Cartography IV

Course Code: UGOPC- 402

Credits: 2

The objective of this practical course in Geography is to understand distribution of Maps , introduction to computer Cartography, study of Central tendency and measure of Dispersion.

COURSE OUTCOME SEM 5th

Title: Human Geography

Course Code: UGOTE- 501

Credits: 4

The objective of the course is to introduce the latest concepts in Human Geography and aware the students about the importance of human resources for the welfare of societies inhabiting across the globe.

Title: Statistical Techniques in Geography

Course Code: UGOPE- 502

Credits: 2

The objective of this practical course in Geography is to understand Statistical Techniques in Geography : Statistical Data: Definition, Types of Data, Sources of Primary and Secondary Data.

COURSE OUTCOME SEM 6th

Title: Geography of Asia

Course Code: UGOTE- 601

Credits: 4

The objective of the course is to introduce the world geographical scenario and latest changes being experienced in the world.

Title: Field Study and Field Report External

Course Code: UGOPE- 602

Credits: 2

The objective of the course is to introduce Field Work in Geographical Studies
